1080P HD

Magtec Analog HD IR CCTV camera using latest CMOS imaging technology to produce crisp megapixel video. Advance CMOS IR Cut filtering technique allowed vivid colour up to 2.4 Megapixel HD resolutions during day view and minima noise during night view. Most crime happens at night and recorded video is useless if it is blurry. Magtec video DSP edge anti-aliasing algorithm effectively produce clear night view as useful evidence.

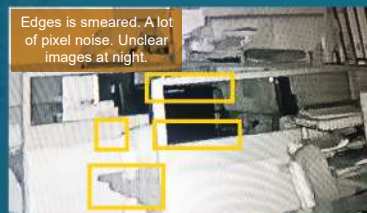

Magtec high resolution 2.4 megapixel camera

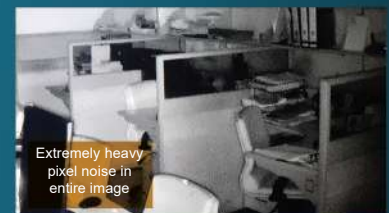

Magtec affordable 2.0 megapixel camera
