-  HANDPHONE CMS

**FULL HD 1080P :**  
 MT914 MT918 MT9116  
 4ch 8ch 16ch

### FEATURES HIGHLIGHT :

1

**YOU DON'T MISS ANYTHING**  
 You can immediately playback when you spotted something suspicious on a specific camera while all other area still running live view on the screen.

2

**PRIORITY MONITORING**  
 You can group multiple important cameras into same multi-channel view. Flexible grouping allows you to monitor all critical areas in a single glance.

3

**MAXIMIZE RECORDING STORAGE**  
 Each camera can have a different recording schedule to reduce HDD space wastage recording unwanted video. You only record what is important to you.

4

**SMARTER SEARCH & PLAYBACK**  
 We might not know the exact time crime happened. Time sliced playback allows you to search by screenshot thumbnail.

5

**MORE INTUITIVE BACKUP**  
 Once you saw the video that you wanted during playback, just right click and drag to backup immediately. This is more efficient.

6

**POWERFUL REMOTE VIEW**  
 Powerful web client and free mobile apps that allow you to monitor / playback / perform settings from anywhere in the world via internet.
